

THE CONTRACT

Under Which Sundry Citizens of Clarksville
Subscribed for J. A. & T. Bonds.

At the request of a number of citizens we reproduce the contract between the J. A. & T. railroad company and the bond subscribers:

The undersigned, each for himself, or themselves, agreed to take at par value the amount of the first Mortgage Bonds of the Indiana, Alabama & Texas Railroad Company, set opposite our names respectively and to pay for same in installments and upon the conditions provided in the proposition made by that company through its president, acres of iron and coal lands situated in the States of Alabama, Tennessee and Kentucky.

The subscribers for said bonds shall designate a trustee, to whom they shall pay their subscriptions for bonds, who shall only pay over the proceeds of sale of bonds to this company's engineers for work actually done and completed, according to the following schedule:

1. Twenty per cent. of amount of subscription in his hands on engineers' estimates as the work progresses, on the first section of ten miles north of Clarksville.
2. Twenty per cent. further of the amount of such subscription upon completion of the grading of the first section of ten miles.
3. Ten per cent. of the amount of such subscription when the rails are actually laid upon the first ten miles.
4. Ten per cent. upon completion of the grading of the second section of ten miles.
5. Ten per cent. when the rails are laid upon the second section of ten miles.
6. Ten per cent. when the grading is completed upon the third section of ten miles.
7. Ten per cent. when the rails are laid upon the third section of ten miles.
8. Five per cent. when the grading is completed upon the fourth section of ten miles.
9. Five per cent.—being the remainder of said subscriptions—when the grading is completed on the fifth section of ten miles.

It is also proposed and agreed that there shall be issued to each subscriber to said bonds fifty per cent. of stock, in said railroad company, on all paid up subscriptions to said bonds.

The capital stock of said company shall not exceed the amount of the proposed issue of bonds of ten thousand dollars per mile.

The subscribers to bonds shall pay into the hands of the trustee, as soon as the work on the first ten miles is actually begun, twenty per cent. of the amount of subscriptions; and shall pay the remainder in such installments as may be called by the trustee to enable him to meet the payments as above provided for.

The amount of bonds to be issued under the mortgage above provided for shall not exceed ten thousand dollars per mile, for each mile of the one hundred lying between the points above described.

Fourth—The said company bind itself to begin the work of building the division north of Clarksville within fifteen days after the above amount of bona fide subscriptions to their bonds have been made, and to carry on the work with all diligence until fifty miles of narrow gauge railroad is completed and equipped, beginning at Clarksville.

E. C. GORDON,
President I. A. & T. R. Co.,
Clarksville, Tenn., March 13, 1885.

The bonds here subscribed for are to be a part of an issue not to exceed ten thousand dollars per mile for the division of one hundred miles between the North Western railroad crossing in Dickson county, Tennessee, and a point one hundred miles from said N. W. R. R. and between the Chesapeake & Ohio railroad and the Ohio river in the State of Kentucky as set out in the proposition above. But it is agreed that not more than ten thousand dollars of said bonds shall be issued for each mile of said road to be built north of Clarksville, and no other bonds shall be issued and sold under said mortgage until the work shall have begun on the part of the road south of Clarksville, the said company obligating itself to use the money arising from the sale to the building of said road.

So soon as the amount of bonds subscribed hereunder shall reach the sum of \$200,000, or such like sum as may be accepted by the I. A. & T. R. Co. as a sufficient compliance with the terms of their proposition, this subscription shall become binding, and said road north of Clarksville shall be surveyed and located at least as far as the C. & O. R. R., and the mortgage provided for shall be executed, and the bonds so agreed to be taken shall be placed in the hands of the trustee selected by the subscribers, who shall hold same and deliver to subscribers when fully paid for. But a right of action is hereby given to any subscriber in default any call made by said trustee under this subscription.

The first interest coupons upon the bonds here subscribed for shall mature 1st July, 1885, and not sooner.

THE COAL OIL TRADE IN CLARKSVILLE

Decline of the Market—How the Tennessee Inspectors Drive the Mean Oil Over to Kentucky.

Mr. W. A. Settle who represents Chess Charley Co., here, sent out circulars to the trade yesterday quoting two cents reduction in all grades of coal oil, and a declining market. Competition has been quite lively for some time, and it is believed that coal oil will have to come down below cost of manufacturing, and Chess Charley Co. have decided to establish coal oil tanks here, storing oil in bulk, and will run a tank wagon to supply the trade, filling retail tanks every day. This makes lively competition and is a healthy sign for the market and must be a good thing for the merchants as well as consumers. It is, however, fortunate for the consumers that Tennessee has a law protecting the innocent from the sale of dangerous or adulterated fluids cheaply made to maintain competition. We refer to the inspection laws which require a flash test of 120° Fahrenheit. This test is a guarantee that oil in a lamp cannot be heated sufficiently hot from the burner to cause it to take fire and explode, while there is always danger of explosion with a low grade of oil, especially if the wick be loose in the burner to admit of the blaze passing down into lamp, where the fire is attracted by the hot oil, which if it be a low grade is as inflammable as gasoline or benzine, while a good quality, made up to the requirements of the law will not take fire if a blaze is touched to it, unless heated above 120°. Some manufacturers have a way of putting paraffine in kerosene oil to make it stand the flash test. This may render it harmless from combustion, but the oil is next to worthless as an illuminating fluid, and can be easily distinguished by its dead yellowish cast. A highly distilled brilliant illuminating oil, has a lively bluish cast, and clear as water. It is a heavy penalty in Tennessee for any one by retail or wholesale to sell oil without the inspectors brands on the cask. Dealers in the country and out of towns where there is no inspector, don't generally know this, and seek after the cheaper grades. They may sell it and escape the penalty, but the risk is certainly very great for so small a profit. Should an accident happen from it (and no dealer can know that it is safe without the test,) then the offender would certainly be found out and be liable to very severe penalties. Some two years ago, a large lot of paraffine oil from Ohio found its way to this market and come very near ruining the trade and our dealers have been very cautious since not to buy any but the best. The low grades failing to stand the test are thrown back on the hands of the manufacturer, and all such stock is shipped across the line and sold to our Kentucky neighbors who have no inspection law in that State to protect them.

Our Kentucky friends should make a note of this and take the advantage of the decline in the market and the benefit of advertising to their customers. The Tennessee test, which is a guarantee of high illuminating qualities free from danger of explosion. Really Clarksville is the most reliable market for dealers of the surrounding country for coal oil as well as for flour sugar, coffee, feed seeds and all staple groceries, and all of our grocery merchants handle coal oil of the purest brands.

A Card From Mr. Stahlman.

To the American: My attention has just been called to a Washington special in the Memphis Avalanche, with reference to an interview purporting to have taken place between a representative of the Philadelphia Press and myself on my late visit to Washington City.

So far as this interview couples my name with any declaration tending to show a purpose upon my part or the part of the railroads of this State to unite with the Republicans of this State with a view to securing the defeat of the Democratic party, it is wholly without foundation. It is now nearly three weeks and no notes of the talk were taken, the time elapsing between the conversation and its publication was therefore, quite sufficient for the matter to grow in Mr. Porter's mind to the complexion of his own political ideas, which was thus unconsciously attributed to me as the part of the interview.

In my talk with Mr. Porter—purely a social chat—I distinctly affirmed that the railroads would take no part in politics; that the employees of railroads were, as a rule, Democrats; that I myself was a life-long Democrat, and that nothing would induce me or the railroads to take part in a campaign in this State, unless forced to do so by the hostile action of Democratic leaders; that the railroads had taken a stand in 1884 in favor of taking the question affecting them out of politics, in which they had been sustained by the people at the ballot-box, which so far as the railroads were concerned ended the question.

I did say to Mr. Porter, what I have said to a hundred or more leading Democrats of this State that the South had for fifty years or more been engaged in sentimental politics, mean-

while the Eastern manufacturer and Western farmer had looked at politics from a business standpoint; that while the South was solving great constitutional problems, the Yankee and the Western man had been working for appropriations; that the situation, particularly in Tennessee, had undergone a marked change; sentiment in politics was a thing of the past, and that the party favoring legislation best calculated to promote the progress and material development of our section would receive the support of the masses.

I said also that the tariff question was one upon which Democrats in Tennessee were much divided, and that any attempt to ignore the Chicago Democratic platform or adopt the Morrison theory of tariff reform would meet with disaster. Also, that there was an apparent attempt upon the part of a few Democratic leaders to make war on the administration; that President Cleveland had the confidence of the people generally, and any attempt to fight him would result in disaster to those who inaugurated the fight. This has been my opinion for months; it is my judgment now; I have expressed it before; I affirm it now.

I have no recollection whatever of the mention of the names of Mr. Caldwell or Mr. McMillin beyond what was said with reference to other Tennessee representatives, a mention of whose names was only made in connection with the course likely to be pursued by them on questions affecting the people of the State.

I attach no importance whatever to the utterances of certain Democratic politicians, who have, for some time past, been endeavoring to read better Democrats out of the party. I did not become a Democrat at their solicitation—I shall not leave the party at their bidding.

The foregoing was written Wednesday evening upon receipt of the Avalanche containing the Washington special, and would have appeared simultaneously with your vigorous editorials but for sickness in my family, which, with other pressing matters, forbade me leaving my home that night. I did reach the Union office by telephone, but, finding Maj. McCord absent, concluded to defer its publication until to-day.

I am surprised that The American should have given so much prominence to a statement purporting to be an interview, but not published in the Philadelphia Press for two weeks after the interview was supposed to have taken place.

I wish to affirm that the railroads of Tennessee have no desire to meddle with the politics of the State, nor do I wish to be regarded as "the lieutenant commander of the Louisville & Nashville Railroad Company's political department." I am a plain business man, devoted, I trust, to my profession, and in connection with its duties have, so far as in my power, endeavored to remove all barriers to a better feeling between the people and the railroads. I am no politician, neither am I asking favors at the hands of any political party. I would rather have the esteem and good will of the humblest citizen in the State than the praise of a horde of political bosses of either party, however much exalted.

E. B. STAHLMAN.

HOPKINSVILLE, KY.

A Strike at the Coal Mines—Trouble Expected.

Special to the Nashville Union.

HOPKINSVILLE, Feb. 25.—The "Knights of Labor" are on a strike at the Hecla coal mines. The St. Bernard have turned off several of that order, thereby creating great dissatisfaction among the workmen. Vague apprehension is felt that trouble of a serious nature may be looked for. Mr. Geo. Atkinson, secretary of the St. Bernard, fell through the mines some ten days ago and is laid up with a broken leg. The strikers, knowing his condition, are taking, seemingly, an underhand advantage of the situation. The Hecla mines are entirely deserted, the strikers having been discharged. Some fifteen or twenty have been set free by the St. Bernard company, and others will follow soon. Men are stationed at the door of the "Knights of Labor" and if any miner enters he is discharged the next morning. This is a serious state of affairs and much deplored by our citizens, as our coal-yards are in a destitute condition—almost empty. It is to be hoped that the dissension with the working class will soon terminate, otherwise it is safe to predict that it convicts are put to work in the mines serious trouble will be the result.

To My Friends.

After an absence of several months, I have returned to my old position as salesman in Boot and Shoe store of Messrs. Bowling and Wilson. I will take pleasure in waiting on all who may give me a call—and will guarantee satisfaction. Respectfully,
W. S. SAN'L R. DALY.

SHERMAN and Fry were both pall bearers at Hancock's funeral this morning. It is to be hoped they did not glare at one another across the coffin.

BROWN'S IRON BITTERS
—THE BEST TONIC.
This medicine, combining Iron with the most powerful and complete action, cures Dyspepsia, Indigestion, Weakness, Impure Blood, Rheumatism, Headache, Neuralgia, etc. It is an invaluable remedy for Diseases of the Liver and Lungs. It is invaluable for Diseases peculiar to Women, and all who lead sedentary lives. It does not injure the teeth, cause loquacity, produce constipation—other iron medicines do. It enriches and purifies the blood, stimulates the appetite, aids the assimilation of food, relieves heartburn and belching, and strengthens the muscles and nerves. For intermittent Fevers, Lassitude, Lack of Energy, etc., it has no equal. The genuine has above trade mark and crossed red lines on wrapper. Take no other. Made only by BROWN CHEMICAL CO., BALTIMORE, MD.

Kidney Complaint.

For over six years I have been a terrible sufferer from a troublesome kidney complaint, for the relief of which I have spent over \$250 without benefit; the most noted so-called remedied proving failures. The use of one single bottle of B. B. B. has been marvelous, giving more relief than all other treatment combined. It is a quick cure, while others, if they cure at all, are in the distant future. C. H. ROBERTS, Atlanta Water Works.

Dr. L. A. Guild, of Atlanta, who owns a large nursery and vineyard, has a lad on his place who was cured of a stubborn case of Scrofula with one single bottle of B. B. B. Write to him about the case.

Misses and childrens cloaks positively at cost at Mrs. Rosenfield's.

Bottled Advertising.

It has been demonstrated that bottled advertising is superior to any and all modes. We have adopted the plan of placing the bulk of our advertising INSIDE of the bottle and corking it up, while others do all their work on the outside.

That is the reason that B. B. B. proves so valuable in the cure of all blood diseases. Scrofulous Swellings and Sores, Rheumatism, Catarrh, Skin and Kidney affections. Merit is in the bottle and the patient is at once convinced of the fact. Large bottles \$1. three for \$2.50. Address, Bood Balm Co., Atlanta, Ga.

B. B. B.

J. M. Ellis, Atlanta, Ga., writes: I have had a severe form of Eczema, ten years, and have failed to secure relief from various doctors, and about 100 bottles of a noted remedy. It was pronounced incurable, but the use of B. B. B. has effected a cure, and I refer to Dr. D. O. C. Heery, Dr. F. F. Taber, Atlanta, Ga.

W. M. Cheshire, at W. H. Brotherton's store, Atlanta, writes: "I have had a large eating ulcer on my leg cured by the use of B. B. B."

It is decidedly a most wonderful medicine for the cure of blood diseases, and it will please every body."

NASHVILLE, TENN., Nov. 8, 1884. One of my customers, Mrs. L. Williams, has been using B. B. B. a short time and reported to me that its effects were simply marvelous, and that it far surpasses all other blood remedies she has used, and that she could hardly sanction anything said in its favor, as it had given her more relief than anything she had ever used before.

A 32 page book filled with information about your blood, your skin, Kidneys, Rheumatism, Old Ulcers and Sores, Blood poisons etc., mailed free to any one. Address, BLOOD BALM CO., Atlanta, Ga.
